

## FROM THE CHAIRMAN...

Recently, I have been bombarded by emails with links to **Reality Check with Fox 19's Ben Swann** (WXIX Cincinnati). Ben Swann has been following the GOP nominating process for several months and has been reporting on rule violations and vote tampering that have manipulated the delegate counts that most news media have carefully avoided. The information and research he has shared is very revealing. For a link to one of his news reports [click here](#).

Florida CP Chairman, Mark Pilling, also compiled [more news casts](#) of the events that transpired at the GOP Convention and at state and county conventions.

Listening to these reports made me think of George Washington's warnings of the *"the baneful effects of the spirit of party."* He advised, *"This spirit ...exists under different shapes in all governments,...but, in those of the popular form, it is seen in its greatest rankness, and is truly their worst enemy... They serve to organize faction,... to put, in the place of the delegated will of the nation the will of a party."* (George Washington's Farewell Address 1796)

In the past weeks we have seen Republicans working behind the scenes **to put, in the place of the delegated will of the nation the will of party leaders**. This is why the Constitution Party exists, to give the people a party based on principles not on power or advantage. People need the power to choose. We, the people, must be able to make choices of our own free will knowing that we in turn will reap the consequences and learn from those choices. That is the essence of America, faith in the will of the people. In speaking of the **liberty and property** of the people, Thomas Jefferson advised, *"There is no safe deposit for these but with the people themselves, nor can they be safe with them without information. Where the press is free, and every man able to read, all is safe."* (Thomas Jefferson to Charles Yancey, 1816. ME 14:384)

For most Americans who listened to the news this past week, there was no mention of all that transpired. I encourage each of you to watch these news reports by [Ben Swann Reality Check](#) several times until the significance of what is happening hits home with you. The people need to know what is really going on. **Please forward this newsletter to family and friends who also need to hear this message. I can think of no better way to advance the cause of liberty than to inform the people.**

Your National Chairman,  
*Frank Fluckiger*

## CANDIDATE'S CORNER...

Audrey Queckboerner is running for State Representative in Indiana against a moderate Republican who has been in office since 1978 and is pro-abortion. This is Audrey's second attempt at running for this position. The first time was when she was a Republican (polling 27% in a 3-way-race).

She is the second CP candidate we are aware of to receive the Right to Life's endorsement. She received this endorsement 2 years ago. A member of the state RTL board knows Audrey's views on abortion have not changed and that she will fight for this cause when elected. Unlike other states, the Indiana RTL is putting principle before party.

"I know I can win this race if enough people hear about me," Audrey says.
