

Dear Friends,

The chief problem underlying all the major issues that our nation faces today is the near total erosion of the Constitution of the United States and the power limits it places on our federal government.

The great men who framed our Constitution understood principles long forgotten by most Americans and most certainly ignored by those who hold office today. They understood that the real purpose of civil government was to protect our God-given rights to life, liberty, and property and that no government is just or legitimate when it acts in violation of these rights.

Both Democrats and Republicans have abandoned those sound principles of good government and as a result our lives, our liberty, and our property are continually at risk.

But there is hope! We, the people, can reclaim our lost freedom. We can take back our government and restore our once great Republic. But, to do so, we must return to the protections of our Constitution and withhold both our support and our vote from any candidate or political party that refuses to obey the power limits of the Constitution.

It is our hope that you will decide to join ranks with the Constitution Party in this great task of restoring our liberties and our Republic. The future of our children, grandchildren, and indeed the nation, depends on the commitment of concerned citizens like you. With your help, we can bring a message of freedom, hope, and victory.

For the cause of Liberty,

James N. Clymer
National Chairman

CONSTITUTIONAL TAX REFORM

The Constitution Party recognizes that every tax levied by government deprives people of not only their money, but also their labor, their time, and their freedom. Our present system of direct taxation and unrestrained government spending has resulted in levels of taxation far exceeding those resisted by our founding fathers.

Our tax plan is simple, responsible, and based on realistic figures. We will cut Federal spending down to constitutional size and replace the current graduated income tax system with one modeled after the original approach found in the Constitution.

Revenues would be raised via reasonable tariffs on imported products and limited excise taxes on non-essential goods and services. This would allow for the elimination of all direct Federal taxes such as income, estate, and capital gains taxes, while still providing adequate resources for the legitimate, Constitutional functions of government.

The resulting reduction in the tax burden of the American people would have a tremendous impact on freedom and prosperity across our nation. No longer will American workers and employers be required to pay FICA taxes, and no longer will one spouse have to work to support the government while the other is working to support the family.

100% PRO-LIFE

The most basic function of civil government is to prevent the shedding of innocent blood. The Constitution Party recognizes that equal protection under the law for all people is fundamental to justice. This includes people of all ages, including pre-born children. We will fight to enforce the constitutional provision that no person shall be deprived of life without due process of law.

STRENGTHEN OUR NATIONAL DEFENSE

The armed forces of the United States exist to provide for the common defense of the American people. We advocate a strong, state-of-the-art military and we oppose unilateral disarmament. Under no circumstances would we commit U.S. military forces to serve under any flag but that of the United States of America. In issues of foreign policy, our goal is to be the friend of liberty everywhere, but the guarantor of ours alone.

DEFEND AMERICAN INDEPENDENCE

We support the Constitutional system of accountability that vests all Federal legislative power in our elected representatives in Congress. This power may not lawfully be relinquished to any international organization or group of nations. Therefore, we will oppose participation in entangling foreign alliances, treaties or global organizations that compromise our independence as a nation.

PROTECT THE 2ND AMENDMENT

The right to bear arms is guaranteed by the Constitution and the Federal government is prohibited from infringing on that right in any way. History has repeatedly demonstrated that liberty is at risk when free citizens are denied the ability to defend themselves against common criminals and political tyrants. The solution to violent crime is not to disarm law-abiding citizens, but for state and local governments to

vigorously prosecute and appropriately punish violent criminals. Therefore, we will oppose all attempts on the part of the Federal government to prohibit or regulate gun ownership by law-abiding citizens.

RESTORE EDUCATIONAL FREEDOM

The Constitution grants no authority to the federal government in the education of children. Therefore, education should be free from all federal government subsidies, including vouchers, tax incentives and loans. The U.S. Department of Education must be eliminated and all federal legislation related to education must be repealed. Funding and subsidies to ideological advocacy groups that seek to influence our culture and society by using our tax dollars to advance their private political agendas must be terminated. We support the unimpeded right of parents to provide for the education of their children in the manner they deem best, including home, private, or religious.

YES! I want to join the Constitution Party in the Fight for America's Future! Here's my donation of...

- \$1000 \$500 \$250
- \$50 \$35 Other \$ _____

Make checks payable to:
